

## YOUR VOICE CAN STOP THE HEALTHCARE REPEAL BILL IN THE SENATE AND SAVE LIVES

JOIN US WEDNESDAY, JUNE 14, FOR A NATIONAL CALL-IN DAY TO PROTECT MEDICAID AND HEALTHCARE FOR MILLIONS OF AMERICANS

House Republicans voted to pass a healthcare repeal bill that put jobs and healthcare at risk across America. Now the Senate could keep 80 percent of the House bill. **Eighty percent of a bad bill is still a bad bill.**

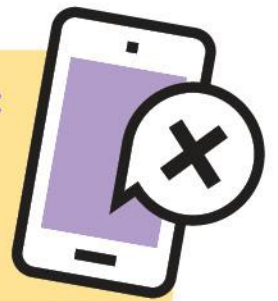

The current House version of the American Health Care Act (AHCA) would rip healthcare away from 23 million Americans. The House bill would increase the cost of healthcare by as much as 20 percent, risk the health of 1 in 5 Americans who count on Medicaid, put millions of Americans out of work, and threaten the economic stability of communities across the United States. All to give the corporations and millionaires a huge tax break.

Together, we can stop them and stop this healthcare disaster for working families, children, seniors and people with disabilities.

**CALL 866-426-2631 TO TELL SENATE REPUBLICANS:**

**Vote "No"** on a repeal bill that puts special interests first and quality, affordable healthcare for the rest of us—last.

**#carenotchaos #VoteNo**

\*Don't forget to share your story of how you, your patients and loved ones would be affected if Congress guts Medicaid.
