

# SHIP TA Center Webinar Announcement

## STARS Searches

Friday, August 21, 2020 | 3:00 pm - 4:30 pm Eastern Time

**Description:** In this webinar, attendees will receive an overview of how to find previously entered data in STARS. We will discuss the difference between the Tracking Inbox, the STARS Search menu, and STARS reports. We will explain how to conduct a standard search and an advanced search. All STARS users with the exception of STARS Submitters have access to the Search menu. STARS Submitters can only use the Tracking Inbox to find data.

**Speakers:** Ginny Paulson and Dennis Smithe, SHIP TA Center

**Audience:** This webinar is relevant to all STARS users. Those with the STARS Submitter user role may only be interested in the first half of the webinar because they do not have the Search menu. This webinar is not relevant to users who only use a proprietary data system and do not access STARS. Note: With the addition of the "Can See STARS Resources" checkbox on user profiles at [www.shiptacenter.org](http://www.shiptacenter.org), STARS webinars are advertised to individuals with that box checked and also to the SHIP director listserv.
