

5 New Features of BenefitsCheckUp.org

It's now easier than ever to use BenefitsCheckUp and get the information you're looking for!

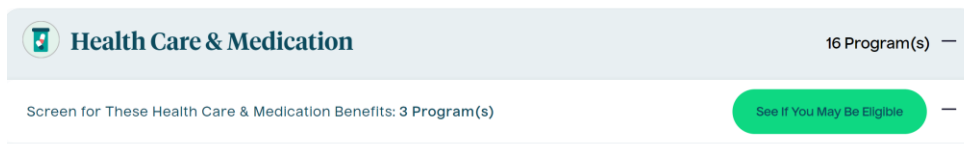

1. Access program details and applications quickly.

Now you don't have to complete a screening to go directly to a program page; just enter your zip code and search by benefits category or name.

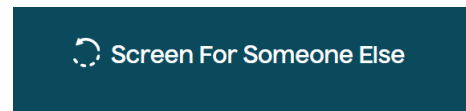

2. Screen by program, category, or key benefits.

Answer only the questions related to what you're trying to find, for one benefit or many.

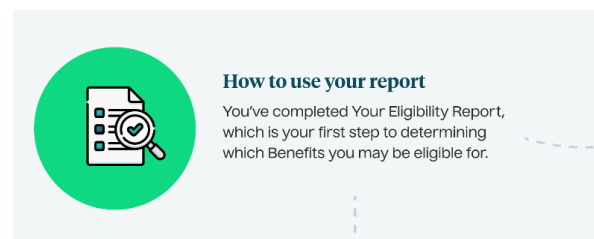

3. Quickly clear data between screenings.

With a single click, you can now erase previous inputs to start a new client session.

4. Get clearer guidance on next steps.

A new infographic explains what to do when someone is interested in applying for a program.

5. Name and email an eligibility report to yourself or a client.
